Single interface for managing mobile devices.

**BlackBerry
Enterprise Server**

- Rich and familiar BlackBerry user experience coupled with trusted security, management and control of BlackBerry smartphones.
- Includes BlackBerry® Balance™ technology which enables BlackBerry devices to be used for both work and personal purposes without compromising security or ease of management.

**BlackBerry
Device Service**

- BlackBerry Device Service allows you to manage your BlackBerry PlayBook for business by applying settings and policies wirelessly.
- Remotely install, update, delete required business applications.
- Includes BlackBerry Balance technology to help keep business information secure and separate from personal information.

**Universal
Device Service**

- Administrators can provision, audit and help protect iOS and Android devices. Providing employees with more Bring-Your-Own-Device (BYOD) options, along with peace of mind for IT departments².

BlackBerry®

1. Requires a Microsoft server or virtualized machine and is designed to support up to 10,000 users on a single server or scaled across multiple servers. 2.
