

# 5big Office

DESIGN BY NEIL POULTON

## The Essential Backup Solution for Your Office.

- Centralized file sharing and backup for 10 PCs
- File-level or full-system restore
- Back up onto the Cloud
- Featuring Windows Home Server 2011

Item #	UPC	EAN	Capacity
9000200	93053000110	3660619002900	2TB (single drive)
Interface: 1 x Intel Gigabit Ethernet 10/100/1000 Base-TX			

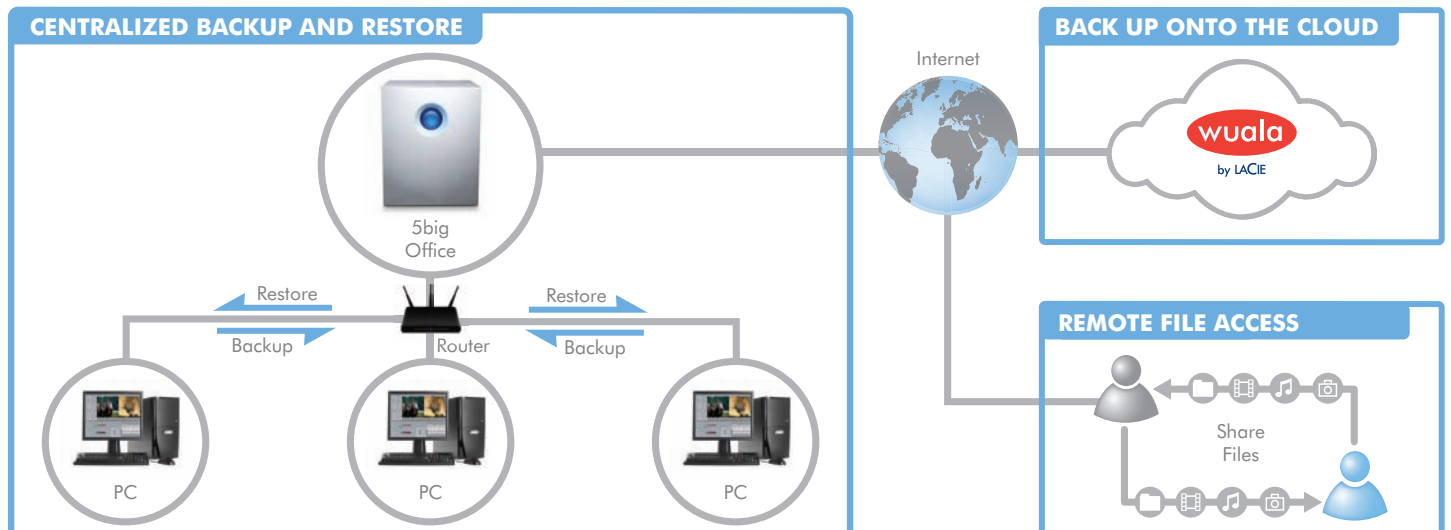

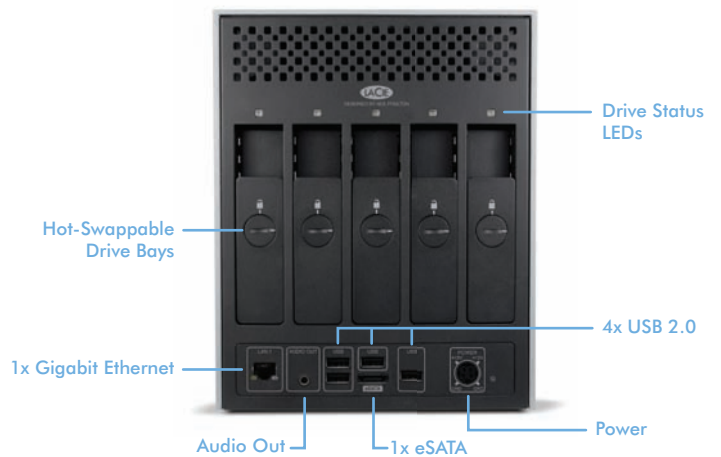

## Product Overview

The 5big Office makes it easy for even NAS novices to bring centralized professional backup to small businesses. It's powered by Windows Home Server 2011, which offers a straightforward setup process, the ability to back up 10 PCs, and a familiar Windows environment.

## Use Cases

- **Start-up Business:** Ease of use, value, and familiar operating environment make the 5big a great professional backup choice for start-up businesses on a budget, even those without dedicated IT specialists.
- **Creative Agency:** Data security protects valuable digital assets, and Cloud integration lets agencies share big files with clients.

## Features & Benefits

<ul style="list-style-type: none"> <li>• Automatic backup for up to 10 PCs</li> <li>• RAID modes 1, 5, and 5+spare</li> <li>• Back up to the Cloud or another NAS</li> <li>• File and system restore</li> </ul>	<p><b>Complete Data Protection. Simplified.</b></p> <ul style="list-style-type: none"> <li>• Back up all an office's workstations</li> <li>• Zero data loss if a single disk fails</li> <li>• Off-site data protection against local disaster</li> <li>• Recover files easily, and even restore an entire system to the same state as last backup</li> </ul>
<ul style="list-style-type: none"> <li>• Sharing and remote access for PC, Mac, and Linux</li> <li>• Cloud storage integration</li> <li>• 1.6GHz Intel® 64-bit Atom™ processor and 2GB of RAM</li> </ul>	<p><b>Sharing Done Right</b></p> <ul style="list-style-type: none"> <li>• Facilitate collaboration between employees, anytime</li> <li>• Sync files to the Cloud for sharing or collaboration</li> <li>• All users can back up and share files quickly, even at the same time</li> </ul>
<ul style="list-style-type: none"> <li>• Windows Home Server 2011</li> <li>• Hot-swappable disks</li> </ul>	<p><b>Easy Configuration. Low Maintenance.</b></p> <ul style="list-style-type: none"> <li>• Seamless integration into networks</li> <li>• Zero down time during disk maintenance</li> </ul>
