EDIFACT	CONTRL	Functional Acknowledgement	In/Out				IBM/IGN					
ISO	8583	Payment Authorization			In/Out		IBM/IGN					

Connectivity Notes:

Internet EDI = EDI-INT requires trading partner to use software compliant with ISO standard for EDI-INT (AS1).

FTP is clear text.

FTP/S requires Cyclone software for decryption of FTP.

FTP/VPN requires a secure VPN connection for FTP delivery.

FTP/PGP requires PGP software for encryption.

X M L Realtime Services	Trading Partner				Connectivity	
-------------------------	-----------------	--	--	--	--------------	--

Description	Customer				HTTP/S
Real Time Availability	In/Out				Y
- Manufacturer part #, UPC	Y				
Real Time Price & Availability	In/Out				Y
- results by warehouse	Y				
- Manufacturer part #, UPC	Y				
- Government & Education	Y				
- ETA date on stock outs	Y
