

## Choose Red Hat Consulting

In the current economic climate, it's critical to make the most of your technology deployments and look for opportunities to carve out costs. Red Hat consultants offer deep subject matter expertise combined with years of industry experience. If you're looking to cut costs, a consultant can provide value by first identifying areas where you can save by migrating to Red Hat or JBoss, and then ensuring a safe, stable migration allowing you to effectively carve out costs without sacrificing quality or reliability.

### Red Hat Consulting can help you:

- Make smart architectural decisions from the start
- Reduce risk
- Accelerate project completion and time to value
- Integrate open and closed source software components
- Reduce support requirements
- Maximize product performance
- Deliver knowledge transfer and best practices to your in-house team

Choose from services designed to help you wherever you are in your Red Hat or JBoss deployment cycle. Still weighing the risks and rewards? Invest in a professional assessment and know exactly what you stand to gain by migrating. Or, if you're ready to implement and migrate, find solutions that promise successful transitions whether you're migrating your operating system, middleware or applications.

Already started an in-house project? Add elite engineers and architects to your team and have dedicated open source expertise under your roof for the duration of a project or longer.

### Prepaid Consulting Units from Red Hat Consulting

Consulting Units offer you the flexibility to purchase consulting services from Red Hat in advance and determine your precise consulting needs later. Buy Consulting Units now and apply them to any Red Hat Consulting purchase within 12 months of purchase.

If you have unallocated end-of-year budget, Consulting Units are a great way to invest in your technology infrastructure needs without committing to a specific consulting topic upfront.

### Purchase Information

Each unit costs \$100 (MSRP) and a minimum purchase of 100 units is required per purchase. A typical one-week engagement requires 100 units but may vary based on your specific requirements.

### Consulting Units Redemption

Redeem Consulting Units for any Red Hat Consulting offering including:

- Assessments
- Quickstarts
- Implementations
- Health Checks
- Workshops
