

For Immediate Release

Premier Mounts Now Shipping New Slim-Line Short-Throw Projector Wall Mounts

Entry-level single stud and dual stud short-throw projector wall mounts are ideal for installation on a budget

ANAHEIM, CALIF. (May 10, 2011) – Premier Mounts (www.mounts.com), a leading manufacturer of mounts and accessories, is now shipping the [EST100](#) and [EST200](#), its latest slim-line short-throw projector wall mounts. These projector mounts are economically priced and are perfect for smaller classroom settings. Each mount fits most projectors weighing up to 25 lbs, and includes a universal projector mount that comes with leveling barrels and LockIt™ security hardware.

EST100

The [EST100](#) is a single stud short-throw projector wall mount that is simple to install and can hold projectors up to 25 lbs. The included universal projector mount allows installers to place the projector anywhere along the arm thanks to the sliding plate, which can be tightened using a small screw to provide stability. The mount's Radial Glide® feature adds to the ease of installation by offering up to 6° of smooth adjustment in any direction. The mounting arm also has cable routing cutouts for managing signal and power cables, which can be sealed with a cover plate for a slick look.

The [EST200](#) also offers flexibility with placement thanks to its dual stud wall plate, which provides options for mounting on 12" to 16" studs. It has built-in lateral shift for positioning the mounting arm precisely where it is needed post-installation. Just like the [EST100](#), this short-throw projector wall mount also features Radial Glide® for smooth pitch and roll of 6° in any direction, as well as efficient cable management through the mounting arm. A short-throw projector can be placed anywhere along the arm. The [EST200](#) fits most ultra-short and short-throw projectors up to 25 lbs. and includes a universal mount that features leveling barrels as well as LockIt™ security system for extra safety.

EST200

Both the [EST100](#) and [EST200](#) short-throw projector wall mounts are ideal for classroom settings and conference rooms and are available in a white powder coated finish.

The MSRP for [EST100](#) is \$265 and for the [EST200](#) is \$300. For a more comprehensive installation, use our [UNI series](#) of short-throw projector wall mounts.

For more information about these and other short-throw projector wall mounts, call Premier Mounts customer service at (800) 368-9700 or visit the Premier Mounts website at www.mounts.com.
