

For Immediate Release

Premier Mounts Now Shipping Compact PRF-100 Mount For Small Flat-Panels

Ultra-flat compact VESA mount offers easy and cost-effective mounting solution

ANAHEIM, CALIF. (April 15, 2011) – Premier Mounts (www.mounts.com), a leading manufacturer of mounts and accessories, is now shipping the [PRF-100](#) ultra-flat compact mount for flat-panel displays. It is easy to install and fits displays with VESA mounting patterns from 75 × 75mm to 100 × 100mm. The PRF-100 is the perfect mount for installations where a close distance between the mounting surface and display is required. The economically-priced PRF-100 will hold displays from 15" to 32" and works well for corporate, education, hospitality, residential and digital signage environments.

The slim five-inch square footprint of the PRF-100 is sturdy enough to hold flat-panels weighing up to 50 lbs. The compact, low-profile design, just a half-inch deep, keeps the panel close to the mounting surface. Installation is fast and easy due to the simple two-piece design, which saves time for projects that require multiple mounts.

The PRF-100 is competitively-priced at \$39 MSRP and is a good choice for projects on a tight budget. For installations requiring VESA mounting patterns of up to 200 × 200mm, use the PRF universal flat-panel mount for displays up to 40".

PRF-100 VESA Mount
